### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Edward Howard on 20 November 2006.

The application has been amended as follows:

Claim 33. A method to encrypt a data message having a plurality of message data blocks prior to transmitting said message data block over a network, said method comprising:

- extracting a data value from at least one of said message data blocks;

- selecting an encryption key from among a plurality of encryption keys dependently upon said extracted data value; and

- encrypting at least a subsequent one of said message data blocks using said selected encryption key;

- wherein said extracting, selecting and encrypting are iteratively repeated for others of said message data blocks.

Claims 1 and 33-43 are allowed.

The following is an examiner's statement of reasons for allowance: The cited prior art teaches methods whereby an extracted data value is used to select an encryption key to encrypt a subsequent data block. However, the cited prior art fails to teach or suggest the iterative repeating of the extracting, selecting, and encrypting steps as noted in independent claim 33 or the repetition of the extracting, selecting, and encrypting steps at least two times as provided in claim 1. As a result, the cited prior art fails to anticipate or render obvious the above cited claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
